Financial Policy

To accommodate the needs and requests of our patients, we have enrolled in various insurance programs. While we are pleased to be able to provide requirements of each of the plans, each plan has different restrictions regarding how often services may be rendered and more importantly, where you should obtain these services.

Providing the highest quality of dental care for our patients is our primary concern. We are more than willing to provide that care within your insurance plan guidelines whenever possible.

Unfortunately, if you do not accurately inform us of your plan enrollment and benefit information and we perform treatment not covered by your plan, we have no choice but to bill you directly for those services.

Payment for all services is ultimately your responsibility. We require the full patient balance be paid by completion of treatment unless other arrangements have been made prior to starting treatment.

With your cooperation and our help, you should be able to receive all of the insurance benefits you are entitled to, and we will be able to focus our efforts on your dental needs.

I have read and understand the office policy stated above and agree to accept responsibility as described.
